

#Jenny

Finally I get this ebook, thanks for all these I can get now!

#Rio

Cool! I'am really happy

#Markus Jensen

I did not think that this would work, my best friend showed me this website, and it does! I get my most wanted eBook

#Hun Tsu

wtf this great ebook for free?!

#Che Salsa

My friends are so mad that they do not know how I have all the high quality ebook which they do not!

#Diego Butler

so many fake sites. this is the first one which worked! Many thanks

"The Pepsi Challenge"
Anything that varies with the presentation of Coke or Pepsi is an extraneous variable that may confound the relationship (i.e., it may also be a confounding variable)

**Example: Perhaps people are more likely to pick Pepsi over Coke if different letters are placed on the Pepsi and Coke cups
(e.g., if Pepsi is served in cups with the letter 'M' and Coke is served in cups with the letter 'Q')

**If this is true then the variable of cup letter (M versus Q) is a confounding variable
