Regulation of Financial Markets

Is it good or bad? Would it work without it?

Two Main Reasons for Regulation are:

1. **Increase information to investors** (decrease asym. info)
 - A. Decreases adverse selection and moral hazard problems
 - B. SEC forces corporations to disclose information
2. **Ensuring the soundness of financial intermediaries**
 - A. Prevents financial panics
 - B. Chartering, reporting requirements, restrictions on assets and activities (banks - no stocks, insider trading, etc.), deposit insurance, and anti-competitive measures
